# How do we want to live in the future?

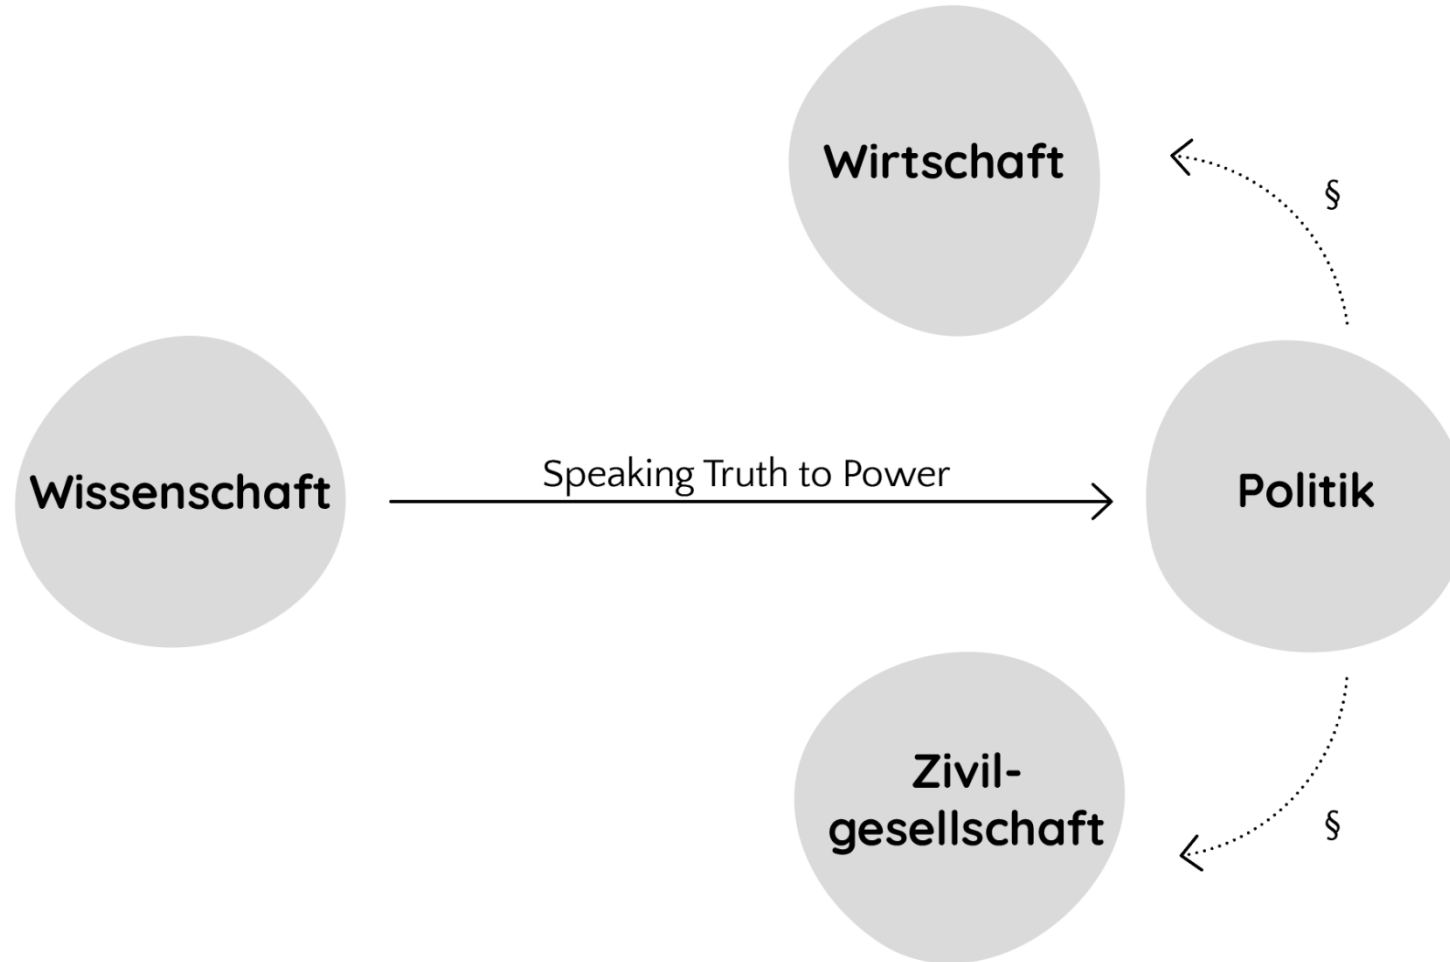

# We need a Great Transformation!

# But doesn't science already interact with society?

# Yes, but this is not enough!

# Yes, but this is not enough!

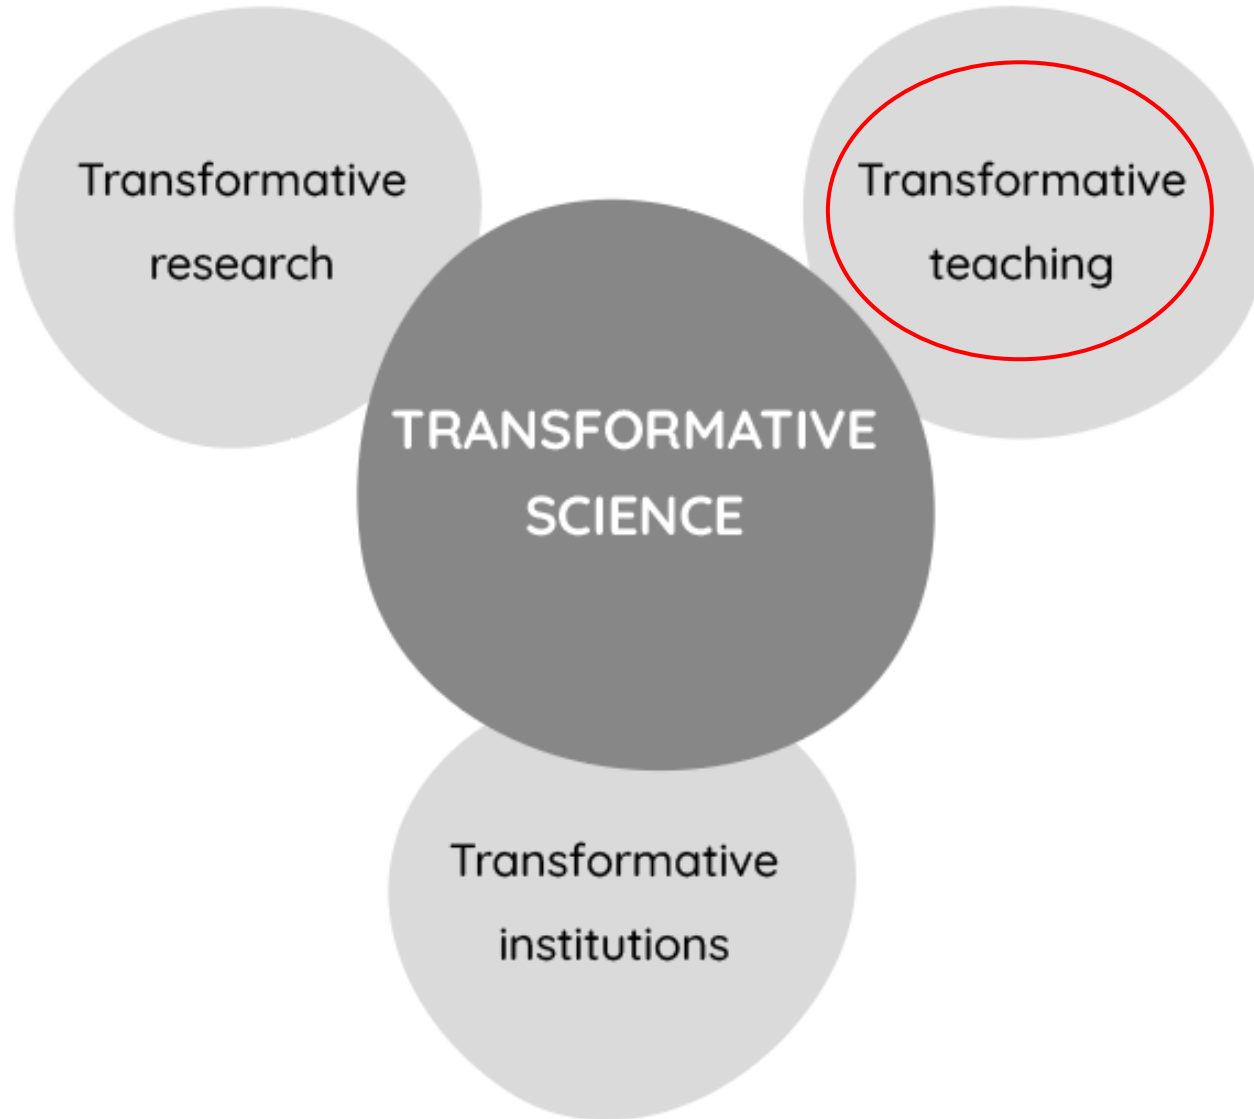

# Transformative science

- A science that initiates and supports change processes together with societal actors, thereby trying to better understand and reflect upon these change processes (Schneidewind & Singer-Brodowski 2014)

AND

- A science that critically reflects on its own practices and institutions

# Transformative learning and teaching

# Wissenschaft(f)t Zukünfte e.V.

We connect students and early-career researchers who want to exchange about transformative science.
